

LATHE

Our lathe section plays a vital role in producing high-precision rotogravure printing cylinders. Each cylinder is carefully turned and finished to achieve perfect balance, smooth surface texture, and accurate dimensions — ensuring stable and consistent printing performance. With years of expertise and a strong commitment to quality, we deliver cylinders that reflect reliability, durability, and exceptional craftsmanship.

STRUCTURE STEEL

Expert in the design, fabrication, and installation of steel structures for industrial and commercial applications — combining strength, precision, and reliability.

PLASMA CNC

Advanced CNC plasma cutting for accurate and clean metal profiles — ideal for both heavy-duty fabrication and detailed design work.

Our Priority
is Quality

OUR VISION

To become the leading reference in the Middle East and Africa for steel cylinder manufacturing, providing European-level quality and building long-term partnerships based on trust and innovation.

OUR GOALS

- Maintain our leadership as Egypt's first and largest specialized factory.
- Continuously invest in technology to ensure the highest levels of accuracy and quality.
- Expand exports into African and Middle Eastern markets.
- Add value-added services such as coating and surface treatments, offering complete solutions for our clients.

CYLINDERS

OUR SERVICES

At Iron Tech, we specialize exclusively in the manufacturing of Rotogravure Printing Cylinders — delivering precision, durability, and world-class performance for the printing industry. With years of expertise and advanced technology, we ensure every cylinder meets international standards of quality and accuracy. Our mission is to support our clients with reliable, high-performance cylinders that enhance print quality and production efficiency. At Iron Tech, excellence is engraved in every detail.

Our Priority
is Quality

WHO WE ARE

Industrial Division – Manufacturing
We are Egypt's only factory specialized in manufacturing steel rotogravure cylinders using the latest CNC technologies (Laser – Lathes – Plasma). We don't just manufacture products — we deliver quality and trust that industries can rely on.

Quality
is
Priority
